

Getting to Football 2018-19

Version 0.1, 5 June 2018

Getting to Football is back after too long a break! Right now I'm not completely sure where I'm going with this, but it's so much easier to produce in a PDF format than in a website format and so I'll be sticking with this format for the time being.

The intention is to cover English football from the Premier League down to Step 6 (maybe Step 7, we'll see), together with the higher levels from the other nations of the United Kingdom. Perhaps a couple of random bonuses too, with a nod to the fellow – he knows who he is – who asked about shinty!

This current version is very much a work in progress, but it should all be finished by the time the new season starts. For the moment this PDF is available *only* from Tony's Non-League Forum (www.nonleaguematters.co.uk) but this will change as I get nearer to completion. The vague intention is that I will issue a revised version every week during June and July so you'll be able to see how things are coming along, but don't hold me to that. It will get prettier too; I've been given a rather nice photograph of a non-league ground to use as a front cover, but I need to get the file size down a bit before I include it.

Comments and corrections are of course very welcome. For the moment please make them on Tony's Non-League Forum; I've had a new computer since the old website was last regularly updated, and I don't know the password for the email address that is referred to there!
